

Clinic Report and Activities on February 2012

On February, 2012 our Sen Soursdey clinic received and examined all the people who have been living in Sen Sok II village with other people living around this village that have total 8 villages with 282 patients who have discussed and got their treatment includes 288 kind of illness.

Mr. Sao Chan is a staff who has respond in deliver card number and paper work said that: Now a day the people who living in this area are so delighted because all the time that they bring their children to Sen Soursdey clinic in order to examine and treat their illness always get a good service of examination and treatment without paying and take a

good care from doctor and all the staff who work in this clinic.

A woman who lives in this area shows her feel and heart that I'm really happy when I come to have examination and treatment here because of the clinic service here is good and free daily. On the other hand, for expenses in her family are so difficult because everything now a day need a lot of money for children like go to other clinic, eating, food utility and other expenses. And for revenue in family not enough for expense because she can find money only 1,50usd to 2,50usd per day, one more thing, if in other private clinic need to spend 2,50usd for consulting and examine service, but if we spend for more medicine need to spend

10usd to 15usd for three days.

Mrs. Kong in the 35years old said that: every time that her children get sick she always take them to consult and examine her since her child has the age of three months and she hopes that our clinic will continue provide in good service to help all the poor people and orphans and ask for all donor continually support to make Sen Soursdey clinic still work and develop more to help all the poor people in this area. She really appreciates to the entire donor and May God blesses you all the best.

Everyday working activities of clinic, our team work always share good news of our Christ to all the new patients and not yet believe in Jesus Christ. For our clinic service we do not discriminate whether the people who believe or not, is all our staff provide good service to all of them like consultant, examination and encouragement.

Time work of our clinic start from Monday, Wednesday and Friday at 1:30 to 5:30pm.

Your time and your financial support make decent affordable medical care possible for families in Cambodia.

Prayer Request:

- 1-Pray for one poly clinic in Stung Meanchey village for street children and poor families who live in garbage dump.
- 2-Pray for one van to serve this ministry.
- 3-Pray for new clinic project in Siem Reap province will come soon.
- 4-Pray for Ps. Rathana's Master degree school fee for 2years.
- 5-Pray for our donor's Mike and his families.
