

## **Clinic Report and Activities on March and April 2012**

On March and April, 2012 our Sen Soursdey clinic received and examined all the people who have been living in Sen Sok II village with other people living around this village that have total 8 villages with 264 patients on March and 175 patients on April who have discussed and got their treatment includes 279 on March and 185 on April kind of illness.

I have been living in this village with stomach ache and arm itch. I often come here for treatment here all the time I'm not well with these kinds of illness because this clinic has skilled-doctor and other staffs are friendly, taking a good care and pay attention so much on all the patients with having many good medicines that make me believe strongly to come here. On the other hand, for consultation and medicine is free 100%.

Honestly, I like to appreciate to all Clinic's staff and Donor in my deep heart without saying anything beside that and have only praying to God to bless all of your wish come true, happy life in god , more success in work for running this clinic with improving from day to day.

All the time that my son gets diarrhea and fever, I always bring him here for examination and get medicine for him without paying.

## The Word of God Brings Healing

You have to **believe** when you pray. Many people pray without believing. **Be fully convinced** that God can heal. **Do not doubt.**

**Matthew 8:8,13**

The centurion answered and said, "Lord, I am not worthy that You should come under my roof. **But only speak a word, and my servant will be healed.**"

Then Jesus said to the centurion, "Go your way; **and as you have believed,** so let it be done for you." And his servant was healed that same hour.

**Your time and your financial support make decent affordable medical care possible for poor families in Cambodia.**

**Prayer Request:**

- 1-Pray for one poly clinic in Stung Meanchey village for street children and poor families who live in garbage dump.
